WORK EXPERIENCE

NCC Environmental Services **2025-2026**
Driver/Field Team Assistant
- Coordinated and transported a team of 5 to field locations.
- Planned routes and schedules to meet project deadlines.
- Led on-site logistics and ensured safe operations.
- Assisted with environmental control tasks and field problem-solving.
- Maintained clear communication with supervisors and team members.

PROJECTS

Student Management System – Java Desktop Application | 2025
- Collaborated in an agile team of three to deliver a fully functional Java Swing application.
- Developed the application logic using core object-oriented programming concepts to ensure scalability and reusability.
- Engineered persistent data storage solutions via SQL integration, and implemented client-side GUI elements with dedicated modules for user input validation and exception management.
- GitHub Link: https://github.com/RameezKarriem/Term4_ADP_Assignment.git

NSFAS App Redesign – UI/UX Project | 2025
- Collaborated on a team project to redesign the NSFAS mobile application interface.
- Played a role in analyzing user pain points and refining the app's layout and navigation for a smoother experience.
- Contributed wireframes and high-fidelity prototypes using Figma, keeping accessibility and usability at the forefront.
- Prototype: https://www.figma.com/proto/2o459QPq1FgqfB1zrhvukq/Untitled?node-id=0-1&t=zlwd0aX64qaMLr3K-1
